LOŠINJ – NAJBOLJA LIETNA ODMORIŠNA DESTINACIJA 2019.

LOŠINJ – CROATIA'S BEST SUMMER VACATION DESTINATION 2019

U suradnji s tvrtkom Interligo, još 2017. godine započeli smo s provođenjem projekta IQM Destination LOŠINJ upravo kako bi dodatno potaknuli sve turističke dionike u destinaciji da svojim radom, odgovornošću i kreativnošću pridonese podizanju kvalitete usluge te se na kraju i izdvoje kao lideri u destinaciji.

Uz privatnu smještaj koji je u projekt ušao prvi, u IQM Destination LOŠINJ postepeno su se uključili hoteli, kampovi, turističke agencije, ugostiteljski objekti, prodavaonice i suvenirnice, kozmetički saloni, wellness centri, atrakcije i obiteljsko poljoprivredna gospodarstva. Svaki sudionik uživa pogodnosti uključenjem u projekt, a to su marketinške promocije; posebno isticanje na internet stranicama Turističke zajednice

Grada Malog Lošinja te promocija putem kanala promocije TZG, zatim medijska promocija i sufinanciranje marketinških aktivnosti.

Smatram da je apsolutni prioritet u turizmu kvaliteta i autentičnost turističkog doživljaja. Sudionici na ovaj način imaju prednost individualnog pristupa gostu, ako tome pridodamo kvalitetne smještajne kapacitete, zanimljive i inovativne proizvode te autohtonu ponudu, vjerujem kako će svojim angažmanom nastaviti odgovarati svim očekivanjima gosta. Na ovaj način dodatno podižemo kvalitetu cjelokupne destinacije i potičemo izvrsnost u svim segmentima turizma.

Gradonačelnica Grada Malog Lošinja,
Ana Kučić

In cooperation with the company Interligo, in 2017 we started implementing the IQM Destination LOŠINJ project, namely in order to further encourage all tourism stakeholders in the destination to contribute to the raising of service quality through their work, responsibility and creativity, as well as to encourage them to eventually stand out as leaders in the destination.

In addition to private accommodation, which was the first to be included in the project, IQM Destination LOŠINJ gradually included hotels, camps, travel agencies, hospitality facilities, stores and souvenir shops, as well as beauty salons, wellness centers, attractions and family farms. Each participant enjoys the benefits of being involved in the project, i.e. marketing promotions, and especially the presence on the websites of the Tourist Board of Mali Lošinj, as well as promotion through the channels of the Zagreb Tourist Board, media promotion and co-financing of marketing activities.

I believe that the quality and authenticity of the tourist experience are the absolute priority in tourism. That way, the participants have the advantage of individual approach to the guest, and if we add quality accommodation capacities, interesting and innovative products and indigenous offer to that, I believe that they will continue to meet all expectations of their guests. That is how we further raise the quality of the entire destination, as well as encourage excellence in all tourism segments.

the Mayor of the City of Mali Lošinj
Ana Kučić

More visoke kakvoće i zrak prve kvalitete s više od 200 sunčanih dana godišnje s 1018 biljnih vrsta od kojih 939 pripada autohtonoj flori, Lošinj čini aromaterapeutskim središtem i destinacijom vitalnosti, zdravstvenog turizma, ekološki osviještenog i modernog odredišta. Kako bismo osigurali kvalitetan boravak u destinaciji osmišljen je IQM Destination Lošinj.

Ovaj projekt integriranog upravljanja kvalitetom u destinaciji osmišljen je s ciljem osiguravanja kvalitetnog boravka u destinaciji kroz razvijanje kvalitete usluge i proizvoda te umrežavanja „najboljih“ u destinaciji. Na ovaj način povezujemo subjekte koji gostima pružaju najbolju uslugu te najkvalitetniji sadržaj, odnosno partnere koji jamče kvalitetu. Kako bismo pratili razvoj destinacije i turističke potražnje, svi sudionici projekta moraju ispuniti određene standarde kategorizirane prema pojedinim subjektima; hotelima, restoranima, privatnom smještaju, turističkim agencijama, kampovima, prodavaonicama, suvenirnicama te wellness sadržajima.

Kontinuirani i sustavni monitoring, praćenje razvoja kvalitete, savjetovanje kako unaprijediti destinacijsku kvalitetu i promicati integriranost, lokalnu autohtonu priču, domaće kvalitetne proizvode, kulturu destinacije te stavlja u fokus kvalitetu i gosta koji destinaciju doživljava u cijelosti, sve su to ciljevi i aktivnosti ovog projekta.

Lošinj se sve više može pohvaliti izdvojenom visoko kvalitetnom turističkom ponudom. Cilj je da upravo tu ponudu onda prate i ostali dionici u destinaciji što naposljetku podiže kvalitetu i prepoznatljivost cjelokupne destinacije.

Dobrodošli na Lošinj - otok vitalnosti!

Direktor Turističke zajednice
Grada Malog Lošinja
Dalibor Cvičković

High-quality sea and best-quality air with more than 200 sunny days a year, as well as with 1,018 plant species, of which 939 belong to the indigenous flora, make Lošinj an aromatherapy center, a vitality and health tourism destination, as well as an environmentally conscious and modern destination. The IQM Destination Lošinj was designed in order to provide guests with a quality stay in the destination.

This integrated quality management project was designed for the purpose of providing a quality stay in the destination by developing quality services and products, as well as by networking the “best ones” of the destination. That way, we connect operators that provide guests with the best service and the highest-quality content, that is partners who guarantee quality. In order to monitor the development of the destination and tourism demand, all project participants must meet certain standards categorized by operators: hotels, restaurants, private accommodation, travel agencies, campsites, shops, gift shops and wellness facilities.

Continuous and systematic monitoring, the monitoring of quality development, consultations on how to improve destination quality, as well as promote integration, our local and indigenous story, local quality products and the culture of the destination, as well as our focus on quality and guests who are to experience the destination as a whole – these are all goals and activities of said project.

Lošinj boasts an ever-increasing quality of its tourist offer. The aim is for that offer to be pursued by other stakeholders in the destination as well, which ultimately raises the quality and recognizability of the entire destination.

Welcome to Lošinj – the island of vitality!

of the Town of Mali Lošinj
