**PROTECT NATURE!
RESPECT THE LOCAL ENVIRONMENT
& TRADITION!**

NOW is the right time to start acting responsibly and protecting the Lošinj archipelago. Each of us in our own immediate surroundings.

Together, by taking what are small steps in our everyday lives, we can make significant and positive changes by preserving nature and the environment, getting to know the island's culture and history, and enjoying traditional events.

PROTECT NATURE!

- ✓ Lošinj boasts:
 - ✓ more than 200 days of sunshine per year
 - ✓ over 280 km of maintained footpaths and promenades spanning five islands
 - ✓ supreme air quality
 - ✓ pristine sea
- ✓ don't litter when spending time in nature – take whatever trash you may have with you and throw it in the bin

“Leave behind as few footprints and as many impressions as possible.” – UNWTO

PROTECT NATURE!

- ✓ the Lošinj islands are home to more than 200 resident dolphins
- ✓ the Blue World Institute works hard on the preservation of the marine environment through awareness-raising and educational activities, conducts research in the field, and carries out various sea and coastline clean-up campaigns
- ✓ you too can support their work:
 - ✓ adopt a dolphin
 - ✓ become a volunteer

PROTECT NATURE!

- ✓ we are really lucky because we have access to drinking water on the islands ☺
- ✓ drink tap water – it is safe and delicious

[but don't forget to turn off the tap]

PROTECT NATURE!

- ✓ if you come across a fallen stone, pick it up and preserve the dry stone walls (called *gromača*) by putting it back
- ✓ close the fence behind you so that the sheep don't escape
- ✓ if you see or smell smoke in the forest, call 112 immediately!

PROTECT NATURE!

- ✓ think about which products you buy and whether you can reuse them and how
- ✓ dispose of waste properly and recycle
- ✓ take part in local eco-actions and island clean-up campaigns
- ✓ set a good example for others and never give up
